TO: File

FROM: James Leatherwood, Reclamation Soils Specialist *BL*

RE: MRP Amendment, Mercur Canyon Project, Barrick Mercur Gold Mines, Inc., ACT/045/017, Tooele County, Utah

The September 22, 1986 submittal has been reviewed against comment M-10(14) - JSL. Comments A and C have been adequately addressed. However, the response to comment "B" was not adequate. Through a telephone conversation (October 2, 1986) Mr. Glen Erick stated the soil definition would be eliminated from the verbage and a revised copy of page 11-63 would be submitted to the Division. This revision was recieved on October 7, 1986. Comment "B" has now been adequately addressed.
